

BLACKBOARD COMMON CARTRIDGE

Adding Federal Reserve Education Resources is as easy as 1, 2, 3!

1. After signing in to your FRE account, download the common cartridge file to your computer from the resource page using the Learning Management System (LMS) Download button.

OVERVIEW

This video assignment explains the concept of demand. Teach how a change in the price of a good affects the quantity of the good consumers will buy and how changes in market conditions affect the demand for a good.

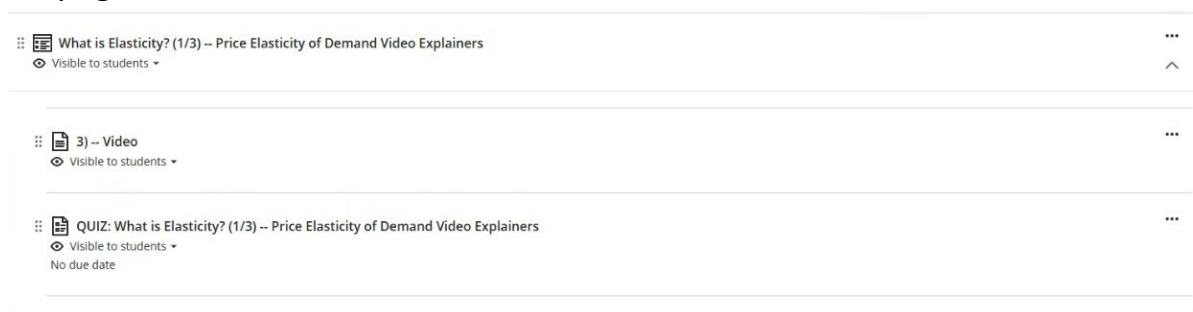

- Learning Management System (LMS) Download**
For use in Blackboard, Canvas, D2L Brightspace, & Schoology.
- Google Classroom**
Preview and download for use in Google Classroom
- Answer Key**

2. In your course, click on the three dots in the Course Content bar and select "Import Content."

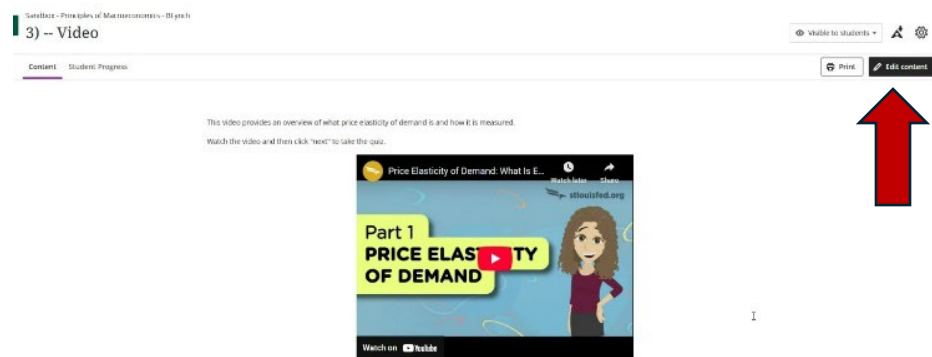

The screenshot shows the Blackboard course interface for "Sandbox - Principles of Macroeconomics". The "Course Content" bar is visible, and a red arrow points to the three-dot menu icon. A second red arrow points to the "Import Content" option in the dropdown menu. The "Import Content" dialog is also shown, with a red arrow pointing to the "Import Course Content" option.

From the slide out bar, choose "Import Course Content" to find and select the common cartridge file in your downloads folder.

3. The common cartridge file imports as a new Blackboard module at the bottom of your course page.

You may customize the assignment page or quiz based on your students' needs.

Open the quiz to adjust, due date, attempts allowed or other assessment settings.
